BRICKWORKZ

CREATE YOUR FUTURE

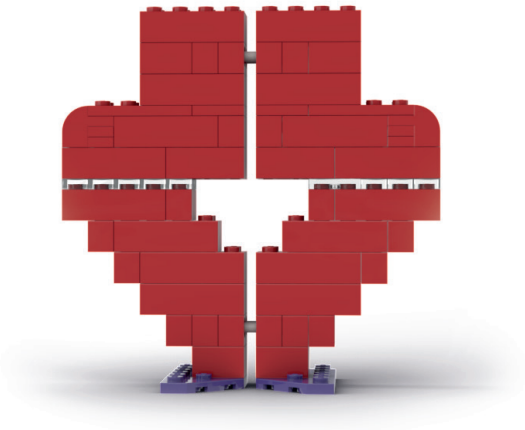
**Wie is Brickworkz?**
Brickworkz is de stichting die zich richt op de ontwikkeling van jongeren tussen de 14 en 21 met een uitdaging zoals autisme en/of ADHD.

Door onze werkwijze helpen wij de jongeren zich ontwikkelen op sociaal en werk gerelateerd gebied via een betaalde bijbaan

Helpt u ook mee om deze jongeren een kans te geven? ga naar: www.brickworkz.nl/doneren

## Wat doet unbrickable

Unbrickable levert wereldwijd losse LEGO stenen. Daarnaast bedenken en produceren wij LEGO producten zoals dit mini logo van Strukton.



Namens onze opdrachtgevers produceren wij producten in LEGO. Dit zijn zeer diverse modellen zoals beursstands, logo's en relatie geschenken. Door onze bedrijfsstructuur kunnen wij ondersteuning bieden van concept tot uitvoering bij het LEGO ontwerp en de vormgeving. Wij kunnen een breed scala aan producten leveren waaronder bouwpakketten (zoals deze) of geassembleerde producten in een gepersonaliseerde cadeau verpakking.

Deze producten worden ontworpen en gemaakt door onze jongeren. Hierdoor creëren wij een win-winsituatie voor de opdrachtgevers en onze jongeren.

Samen impact maken? Neem contact met ons op: www.unbrickable.nl
